OUR HAND-CRAFTED BEERS

COLUMBUS BREWING COMPANY TASTING FLIGHT

A great way to taste the fresh flavors of our unique handcrafted beers

SUMMER TEETH

Refreshingly smooth, crisp, blonde ale.

This traditional Bavarian-style kellerbier originated from the small artisanal breweries of Franconia, where it is still a favorite in the local beer gardens. Ours is served unfiltered with a crisp, smooth finish that tastes like sunshine 4.75/Pint

COLUMBUS APRICOT ALE

Golden-copper, medium bodied ale.

Not syrupy sweet like most fruit beers, this golden-copper ale is for real beer drinkers! Just a hint of apricot gives this medium-bodied beer a delicious aroma without masking the lightly roasted caramel notes and distinctive hoppy finish 4.75/Pint

COLUMBUS PALE ALE

Copper color with a dry finish.

This award winning, copper colored pale ale was the first beer we ever brewed and it's still one of our favorites. We carefully blend German and English malts and add generous portions of American hops for a refreshing citrus aroma and long, dry finish 4.75/Pint

COLUMBUS SCOTTISH

Dark, ruby red Scottish style ale.

Great Scottish ales are prized world-wide for their exquisite, complex flavors. Our version of this classic beer is brewed with five imported malts and pours a dark, ruby red with a dense head and rich malty character that you won't forget 4.75/Pint

COLUMBUS 1859 PORTER

Dark London style porter.

Based on a British brewery's recipe from 1859. Brewed with English Maris Otter malt and Golding Hops. Discover why this beer is referred to as fuel for the Industrial Revolution 4.75/Pint

COLUMBUS IPA

An American IPA.

Our IPA pours a slightly hazy, pale orange with a balanced malt flavor and finishes with a wonderful flavor and aroma only American hops can provide. This beer is served unfiltered to retain all the bouquet from the hops 4.75/Pint
